

Welcome to VinodolSun!

Nice to have you here! We hope that you will have a relaxing holiday in our villas and that you will explore and enjoy the beautiful surroundings of Vinodol extensively.

To help you with this, we have put together a lot of useful information for you:

- **Our house:** How do the kitchen, electrics and heating work? What about arrival and departure?
- **Our infrastructure:** Where can you buy what? Where can you eat well?
- **Our surroundings:** How can you make the most of your leisure time in the VinodolSun area?

Since we ourselves spend a lot of time with our families and friends in VinodolSun, we know the area very well. We would like to share these tips with you and have **marked in yellow** what pleases our palates and senses ☺

If you have any questions or concerns during your stay, Anna and Igor are always at your disposal.

Contact on site (house & handover)	Contact on site (coordination & repair)

If you have any complaints or general problems, Roland can be reached at +43 660 1466009.

In case of emergencies (ambulance, fire brigade, police) contact +385 112 immediately!

We do everything we can to make you feel comfortable during your holiday in VinodolSun. And if we succeed, we would be especially happy if you share these impressions and experiences with us and the other guests - be it on Airbnb, Booking.com, TripAdvisor, Google Maps or VRBO. As a small thank you, you will receive a 5% discount on your next booking.

Feel free to visit us on Instagram, follow us and share your experiences and stories with us.

Best regards (also from our kiwi bush),

Your hosts, Roland, Alfred and Anita

Surroundings of VinodolSun

Our villas

The story

The history of VinodolSun dates back to the 19th century – in the middle of fields and stables, Mira's family built a charming farmhouse. Mira and her husband Peter wanted to redesign this farmhouse while preserving the original character – so today's Villa Vallis was born: a stone house with modern furnishings, in the typical Croatian country house style. In 2012, Mira and Peter fulfilled another dream and built a house for their family right next to the farmhouse – today's Villa Mediterran.

In 2020, we – Roland with family and friends – took over the legacy of Mira and Peter and redesigned the two villas so that up to 20 guests can now be luxuriously accommodated without changing the special, family atmosphere of the property. Our aim is to preserve VinodolSun in its originality, to continuously renovate and develop it further. For us, our families and friends and of course for our guests. Sustainability and living close to nature are always at the heart of our vision.

Arrival & departure

- **House:** Our address is Kricina 20, 51253 Bribir. In the small district of Kricina, there is a road sign with "VinodolSun" leading up the hill to the estate. From the road, turn left right in front of the tennis court and you will already see Villa Mediterran with the parking lot in front of the house.
- **Parking:** Free on site in front of the gate to the property. There is an EV charging station next to the far right parking lot with a type 2 plug/11KW.
- **Arrival / key handover:** There are two possibilities:
Either Ana, our housekeeper, is already waiting for you because you have agreed on a fixed arrival time. Or, if that's not the case, you can find your keys in the key safe next to the carport, to the left of the entrance of Villa Mediterran.
The preliminary code of the vault was sent to you in advance. This code is valid for the entire duration of the holiday; so you can put it back at any time and use it to hand over the keys within your group. To open the safe, please press the button in the middle, enter your code, the box will flash green, grab the flap at the top left and right and open it (it opens from top to bottom). If it doesn't work, please contact us as described above. In any case, you will get a comprehensive introduction from Ana the next day at the latest, who will show you all the facilities in the villa/domain. Please make an appointment with her in advance.
- **Departure:** Please plan with Ana the handover on the day of departure at 10 a.m. at the latest. This ensures that the next guests take over the house in the same condition as you took it over. Cleanliness is our top priority. Please put the dirty dishes in the dishwasher and start it. Please also put your garbage bags in the trash can next to the carport - all other cleaning work will be done by us. Thank you!

Amenities & Amenities

Villa Vallis

- **Entrance and privacy Villa Vallis**
You enter the villa by turning left at the outer gate by the carport, down a few steps, then along the right and after 20 meters up to the right, after 20 meters, right into the entrance to the courtyard. In the courtyard is the main door to Villa Vallis. The area is surrounded by a fence to provide full privacy. Other guests in the other villa and you only share carport, fitness area, sundowner bench and playground, all of which are outside the privacy of Villa Vallis.
- **First aid:**
A first aid kit is located in the utility room on the 1st floor.
- **Fire extinguisher:**
This is located in the kitchen, to the right of the refrigerator on the floor, in the living room and on the 1st floor in the stairwell.
- **Courtyard/terrace:**
You are welcome to bring down the rain protection wall if necessary. Use the swivel rod on the wall, insert it into the metal insert and crank it down the wall. The wall provides protection from rain and cold air. Make sure that this wall is cranked up when you make a fire in the fireplace (air exchange).
- **Pool:**
You can use the pool at any time – please respect the need for peace and quiet of

Villa Mediterranean

- **Entrance and privacy Villa Mediterranean**
You enter the villa through the main gate, turn right and walk 5 meters towards the house. On the left side is the entrance door to the villa.
The area is surrounded by a fence to ensure full privacy. Other guests in the other villa and you only share carport, fitness area, sundowner bench and playground, all of which are outside the privacy of Villa Mediterranean.
- **First aid:**
A first aid kit is located on the 2nd floor in the stairwell in the cupboard.
- **Fire extinguishers:**
Fire extinguishers are located in the stairwell on each floor.
- **Courtyard/terrace:**
You can bring down the rain barrier in front of the terrace by remote control if necessary. The wall offers protection from rain and wind. In case of very strong winds, please put up rain protection. In addition, you can control the radiant heater on the terrace by remote control. For details, see instructions in the kitchen.
- **Pool:**
You can use the pool at any time – please respect the need for peace and quiet of

Villa Vallis

other guests on the property. The pool may also be cleaned by a member of staff during your stay. In case of a longer stay, please check the containers and empty the baskets if necessary.

- **Presentation equipment:**

You can reserve a projector and a mobile presentation screen if required. Please let us know your needs in good time. For details on how to install the projector and screen, please ask Ana during the welcome round.

- **Sauna:**

The sauna and infrared heating can be found in front of the pergola. The sauna takes about 30 minutes to heat up, the infrared heater less long. Instructions are on site.

- **Vacuum cleaner/mopping bucket:**

You can find these utensils in the utility room on the 1st floor.

- **Washing machine:**

You can also find this in the utility room on the 1st floor. The instructions for use can be found in the folder with the instructions on the table in the living room.

Villa Mediterranean

other guests on the property. The pool may also be cleaned by a member of staff during your stay. In case of a longer stay, please check the containers and empty the baskets if necessary.

The pool can be heated up to 24°C. There is a counter-current system. They switch on with the right button. It is a pneumatic switch that you have to operate with a firm pressure. You can use the left dial to add air. In addition, the pool has massage jets that can be started/stopped via the push button on the jets.

- **Presentation devices:**

You can use the large TV on the 2nd floor in VM3 for presentations. An HDMI cable is in the cabinet under the TV. You can also reserve a projector and a mobile presentation screen if required. Please let us know your needs in good time. For details on how to install the projector and screen, please ask Ana during the welcome round.

- **Sauna:** The sauna and infrared heating can be found in the Villa Mediterran, on the 2nd floor. The sauna takes 45 minutes to heat up, the infrared heater 30 minutes.

- **Vacuum cleaner/mop bucket**

You can find these utensils in the stairwell, 2nd floor in the closet.

- **Washing machine:**

You will find a washing machine on the 1st floor in the small bathroom.

- **Books:** You are welcome to read books that are on the shelf in the living room and take them with you – please leave one of your own books there if you take one of your own books with you (=book exchange). Thank you!
- **Electrical appliances:** Instruction manuals for the kitchen stove, oven, microwave and refrigerator are always located near the appliances in the drawers. Please make sure that the gas is turned off after cooking.
- **EV Wallbox/Electric Cars:** The plug-in is located next to the front parking lot on the right-hand side. It is a regular European plug type II with 11 KW. Charging is free.
- **Fire alarm:** There are several fire alarms in the house. If one of them is triggered, please check the cause of the alarm and, if necessary, leave the house immediately and call the emergency number given above. To reset the alarm in the event of a false alarm, please refer to the instructions.
- **Bicycles:** In the cabin next to the carport there are 4 mountain bikes with helmets and bike locks for free use for our guests. The bike locks have the code: 2020. Please lock the bikes back in the hut to the bike rack after use and also use the locks when you take a break during a bike ride.
- **Garden:** Our garden offers a wide range of typical Mediterranean flora and fauna. We are sure that you will enjoy the scent of lavender - as well as the smell and taste of rosemary. Its small branches can be used in the kitchen and in the bathtub. Please help us to keep the garden as it is. You are welcome to enjoy ripe figs and grapes.
To maintain the beautiful condition of the property, the garden is watered at night by an automatic sprinkler system. Therefore, please do not leave any sun furniture and objects on the lawn at night. Some of the plants are watered by hand. The gardener will ring your bell in the villa before entering the property.
Above the access road to the property you will find the ruins of an old farmhouse. Behind the ruins is the olive grove. Olives should not be eaten directly from the trees because, when eaten fresh, they contain an intense and harmful bitter substance. **Parts of the property are secured against animals with an electric fence or odors at the property boundary.** Parents are liable for their children.
- **Grill/BBQ**
Each villa has its own gas grill, which is welcome to use. Please cover the grill again after use and clean the grill after use.
- **Table tennis court/Youth Arena:** This is located below the carport. All guests of our villas have access to it; use is at your own risk and parents are responsible for their children. We would be happy if you could fold and fix the table tennis table and cover the table football table when it rains.

- **Konoba:** The Konoba can be used by both villas. To ensure full privacy for your holiday stay, please reserve the konoba in advance, preferably when handing over the villa. You will then receive a separate key for the Konoba from Ana. Please leave the konoba and the adjoining toilet as you found them and return used glasses and plates cleaned the next day at the latest, if guests from the other villa want to use them.
- **Air conditioning/heating:** Can be controlled separately in each room for heating and cooling. See the respective user manual for detailed functions. **The systems only work if windows or doors are closed in the respective room** – otherwise a safety switch prevents the systems from starting.
- **Lights:** There are normal switches in all rooms. We are an ecologically sustainable host and try to avoid energy costs. Therefore, we ask our guests to turn off the lights in the house, pergola and garden when they are not in use or needed. Thank you.
- **Garbage:** The main trash can is located outside the villa in the cottage on the access road to the parking area. Please bring full garbage bags into the trash can or before your departure. Garbage bags and organic waste attract ants and flies. We are trying to separate waste: residual waste please in the green bin, plastic in the yellow bin and paper in the blue bin. There is a deposit system for cans in Croatia. These can be returned undamaged to the supermarket.
- **Open indoor fireplace:** If you are making a fire, make sure the fireplace is open - check this with the opening/closing rotator on the wall next to the fireplace.
- **Private safe:** There is a private safe in each wardrobe in the upstairs bedrooms. To use the safe, please close the safe door and enter a numerical code of your choice with 3 – 6 digits via the numeric keypad. Then press the # key. To open the safe, please enter your previously selected numerical code. The door can now be opened.
- **Smoking and open fires:** Smoking and open fires are prohibited in the house; except in the fireplaces, of course. Smokers are welcome outside, please dispose of cigarettes in the ashtrays.
- **Keys:** You will receive the keys from our housekeeper Ana when you arrive or you can pick them up from the key box next to the parking lot. In case you pick them up yourself, you have been sent a code and instructions in advance. This code is valid for the duration of your holiday; So you can put it back and use it to hand over the keys within your group. To open the box, press the button in the middle, enter the code, the box will flash green, grab the door at the top left and right and open it (it opens from top to bottom). If it does not work, please contact us as described above.
- **Security:** Security cameras are installed at the entrance gate, next to the entrance doors to the villas and in the shared outdoor area. There are no cameras installed inside. There is also a security system installed. No security or camera system is activated during your stay.
- **Tennis:** The tennis court can be used free of charge from both villas. Please enter your planned hours in advance on the board at the tennis court to avoid conflicts of use with guests of the other villa. After each game, please wipe the pitch with the court brooms so that the following players find an evenly distributed granulate on the pitch. We also ask you to pull the nets back in the evening and fix them with the cords so that they are not damaged by the wind. We are also installing a floodlight system. Please make sure that it is switched off again after using the court.

Use is at your own risk and parents are responsible for their children.

- **Patio furniture/awning:** We provide several sun loungers and garden furniture around the property. We ask you to keep the cushions and umbrellas in the house at night, in case of rain showers or strong winds (bora). The sun sails do not have to be removed.
- **TV:** Satellite TV is located in the living room and bedrooms. German-language channels are also received.
- **Wi-Fi:**
The Wi-Fi is connected to the StarLink satellite system. There should be a connection along the entire site. In the case of cover shadows, they will certainly find good reception a few meters away.

Towns and villages in the area

- [Rijeka](#), distance 35 km
Rijeka is the most important port city in Croatia, the third largest city and the administrative center of the Primorje-Gorski Kotar region. From Trsat Castle (Trg Riječka rezolucije 1; 51000 Rijeka) you have a fantastic view over Rijeka and the Kvarner Bay. There is also a nice restaurant and cafés. We park in Viktora Bubnja Street, near the Pope John Paul II Church. On the way to the parking lot, be sure to stop at Gelateria Trsat (Vrlije ul. 1). Here you can get the tastiest ice cream in the whole region.
- [Opatija](#), distance 49kmThe city was a fashionable spa town in the 19th century and has many villas from the Habsburg era. The Lungamare (Franz Josef Promenade) is a 12 km long, beautiful coastal promenade overlooking the city and the neighboring islands. The promenade, which is well worth seeing, leads from Lovran via Opatija to Volosko and is well suited for prams. For those who like to shop, there are nice little boutiques here. The charm of the old town speaks for itself. Enjoy a piece of chocolate cake overlooking the sea at the Argonauti - Milenij café and restaurant. Moments you won't forget...
- [Selce](#): Distance 8.5kmThe small popular holiday resort is located in the immediate vicinity and is suitable for an evening stroll. There are smaller restaurants in the harbour, the Konoba Riva (see above) is recommended.
- [Crikvenica](#): Distance:7.8kmCrikvenica is one of the larger tourist centres in the region. The town has a handicapped accessible sandy beach with many play facilities for small children. Adults will find a wide range of sports (fishing, diving, bike rental, boat and SUP rental, etc.). Tours with excursion boats can also be booked from here.

Excursions

- [Plitvička Jezera, National Park](#); in a south-easterly direction (130 km). Journey approx. 2 hours
The Plitvice Lakes National Park is the most famous national park in Croatia. At the beginning of 1979, the lakes were added to the UNESCO World Heritage List. In addition to the overwhelming beauty of their landscape, the lakes are also known for the diversity and lushness of their flora and fauna.
We recommend entering the park via entrance 2 (Josipa Jovića), as the main entrance 1 is more likely to be served by buses. Four different long tours lead past both entrances. If you have time, you should take Tour H (from entrance H), which lasts about 6-8 hours. The entrance fee includes a ride on a bus and an excursion boat. It is advisable to wear sturdy shoes and, if necessary, weatherproof clothing. Not suitable for strollers! More information on the website: www.np-plitvicka-jezera.hr
- [Učka National Park](#), in the direction of Rijeka-Opatija (northwest).
The Učka Nature Park includes the mountain of the same name and part of the Ćićarija Mountains. It is known for its lush woodland and a variety of meadows and man-made habitats that are home to many endangered and protected plant and animal species. There are many beautiful, free hiking trails here. We recommend starting a 1.5-hour hike from Pansion Ucka, Poklon 4, 51410 Opatija, where you can also get a gigantic view of the coast. Since the signage of the hiking trails is not continuous, you should use a hiking app (e.g. Komoot) or GPS. More information on the website: www.pp-ucka.hr
- [Risnjak National Park](#), north
The national park is located in Gorski Kotar, the most densely forested area in western Croatia. In addition to the beautiful nature, Risnjak is also known for being one of the few areas in Europe where the survival of the lynx is assured. More information on the website: www.no-risnjak.hr
- [Vidikovici OčiVinodola](#)" - The Eyes of Vinodol, distance: from 20 km.
A breathtaking view of the Kvarner Bay and its islands, up to 200 km in good weather. You can enjoy the "Eyes of Vinodol" from a total of six viewpoints. The nearest observation deck "Slipica" is located above Bribir (at an altitude of 446 m). You can either reach it via a hiking trail, which requires great surefootedness, sturdy shoes and good physical condition. Alternatively, you can also reach the platforms by car. The short way from the parking lot is far less arduous. For romantic evenings, enjoy the sunset here with a bottle of wine.
- **Coastal hike from Selce to Novi Vinodolski**
The narrow hiking trail leads through pine forest directly along the cliffs and offers a beautiful view of the sea and the island of Krk. **Don't forget your swimsuit, on the nudist beach you can only get by with a towel....**
- **Island of Krk**
The island is connected to the mainland by a bridge and has small towns and hidden coves that are worth seeing. In particular, the small town of Krk with the fortress "Frankopan" from the 12th century invites you to linger.
- [Bajer Jezero](#), distance 34 km
The easy hike around the reservoir starts in Fuzine. It takes about 2-2.5 hours and is suitable for

strollers. Along the west bank there is all kinds of outdoor sports equipment, for fitness enthusiasts.

Fuzine is located in the mountainous region of Gorski, which served as a backdrop for the popular "Winnetou" films.

More information on the website: www.tz-Fuzine.hr

- [Gornji Zagon](#), distance approx. 25 km
In the summer months, the hinterland offers a refreshing alternative to the summer hustle and bustle on the coasts. The area is hilly and wooded and less developed. The excursion restaurant "[Vagabundo Kolibar](#)" (Ravno 7, 51253 Bribir, 23 km) is a wonderfully rustic mountain hut. The cuisine is geared towards game specialties, especially the nettle pancakes are exceptional. When you return to Bribir from Vagabudo Kolibar, you should make a small detour towards Breze. If you are very lucky, you can see wild horses in the steppe there. The horses are used to people and can be petted.

... Sea and mountains, relaxation and activity. You can find all this with us in VinodolSun!

*We really hope you enjoy your
stay with us!*

Is there anything we can improve?

We are happy to accept any recommendation and look forward to your feedback. You can easily send this to us via the feedback form that you will receive by e-mail after your stay.

Until next time!

Your VinodolSun team
